Presenter:

Patrick White, MD, HMDC, FACP, FAAHPM  
CMO for [BJC Hospice](#)

**Learning Objectives: After completing this seminar, participants will:**

- Identify 3 commonly used medications that lack scientific evidence to support their routine use in care for patients with life-limiting illnesses
- Describe toxicity from a commonly used supplement that may harm quality of life in patients with life-limiting illnesses
- Describe one strategy for reducing unnecessary medications in patients with advanced illness

***This conference brings together palliative and end-of-life care professionals, educators, students, members of professional organizations and individuals interested in improving end-of-life care.***

**What to Wear** Business casual attire is recommended for the event. Since meeting room temperatures are difficult to regulate to everyone's satisfactions, layered clothing is suggested. The rooms tend to run cool so feel free to wear a warm cover-up during the session.

**Photographs** From time to time, Gateway End-of-Life Coalition will use photographs of participants in our promotional materials. By virtue of your attendance, you agree to the use of your photograph in any Gateway End-of-Life Coalition materials, whether print or online.

Friendship Village delivers an exceptional and vibrant lifestyle. They offer an outstanding activities, superb amenities, and comprehensive health services on two campuses; Chesterfield and Sunset Hills. As a mission-driven, not-for-profit community governed by a local Board of Directors and managed by Life Care Services, they have the backing and experience to be the most established senior living community, operating with the highest standards.
