Current Issues in Medicine, Religion and Ethics

A 59 year old man is admitted to the Emergency Department with chest pain. He appears pale and sweaty. An EKG shows an acute myocardial infarction and while he is monitored, his pulse becomes erratic and he suffers a cardiac arrest due to ventricular fibrillation. The patient has a Living Will indicating that he wishes "no CPR". The Will is given to the ED physician who must decide what to do next.

**Wednesday,
December 14, 2016**

5:00 - 6:00 p.m.

Missouri Baptist Medical Center
Clinical Learning Institute, Rooms 420 & 421
(4th floor of Main Garage)

Moderator

St. Luke's Center for Cancer Care

Reverend Renita Heinzl, M Div

Director, Pastoral Care & Supervisor, Clinical
Pastoral Education
St. Luke's Hospital

Steven Pazaric, JD, MBA

Partner, Armstrong Teasdale, LLP

Principles of medical ethics to be discussed include:

1. Describe the effects an advance directive such as a Living Will might have in this case.
2. Discuss how religion can help with advance care planning.
3. Explain what advance directives contain or don't contain and the different types of advance care directives in Missouri.

Missouri Baptist Medical Center designates this educational activity for a maximum of 1 hour *AMA PRA Category 1 Credit*[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity. Missouri Baptist Medical Center is accredited by the Missouri State Medical Association to provide continuing medical education for physicians.

Disclosure of Conflicts of Interest: It is the policy of Missouri Baptist Medical Center to ensure balance, independence, objectivity, and scientific rigor in all of its educational activities. In accordance with this policy, Missouri Baptist identifies conflicts of interest with its speakers and program planners, and other individuals who are in a position to control the content of an activity. Conflicts are resolved by Missouri Baptist to ensure that CME activities conform to the generally accepted standards of the medical community.
