

## Common Psychiatric Disorders at the End-of-Life

Free Workshop  
1.0 Free CEU Credit provided by

**Tuesday, October 16, 2018**

11:15am - 11:30am Networking  
11:30am - 1:15pm Lunch & Presentation

Goldfarb School of Nursing at MoBap

(Located near the hospital main entrance in the same building as the Maine Garage and Clinical Learning Institute)

Presenter:

**Allison Jordan, MD, HMDC**

After the conclusion, attendees will:

- understand the prevalence and presentation of psychiatric disorders at end-of-life,
- appreciate how personality traits can exert an influence on patient care, and
- identify pharmacologic and non-pharmacologic treatments for psychological distress at end-of-life.

The Gateway End-of-Life Coalition has decided to forego a donation from Friendship Village to provide lunch at this program because of the organization's recent decision to deny admission to a same-sex couple. (The story can be found at this link: <https://nyti.ms/2MvPWYV>). As a result, although there is no obligation, a \$5 donation for lunch would be appreciated.
