OBJECTIVES

At the conclusion of this program, attendees will be able to:

- Understand the ethical foundations of advance care planning,
- discuss common challenges encountered in implementing advance care plans,
- understand how a public health approach to advance care planning can enhance autonomy, contribute to public health and improve care at the end of life.

Event supported by Saint Louis University School of Social Work

Saint Louis University's School of Social Work's interactive teaching methods integrate community-based practice with classroom activities and discussions. Small class sizes facilitate an atmosphere of intellectual dialogue that fosters relationships between students and faculty.
